## Software Engineer

LinkedIn: [www.linkedin.com/in/grlucy](https://www.linkedin.com/in/grlucy) | Portfolio: [www.ginalucy.com](https://www.ginalucy.com)

Full-stack Software Engineer with 2+ years of experience developing innovative and scalable new applications and features, as well as testing, maintaining, and improving existing software. A quick learner and collaborative problem-solver with a background in marketing.

### EXPERIENCE

#### **Paymerang** | Richmond, VA

Senior Software Developer

August 2022 – October 2022

Software Developer

July 2020 – August 2022

- Developed finance automation application interfaces, cloud-native REST and GraphQL APIs, and databases throughout the software lifecycle from architectural and technical design through development to successful deployment.
- Provided leadership by mentoring junior developers, conducting code reviews, running training sessions, and serving as a cross-team Subject Matter Expert (SME) for developing automated API tests.
- Established methodologies for integrating the invoice automation product with new Enterprise Resource Planning (ERP) software systems, leading to over 800% growth in the product's client base between 2021 and 2022.
- Designed and developed real-time data subscriptions for the invoice automation and purchase order automation products to improve the efficiency of communication between database and user interface.

#### **CBRE** | Baltimore, MD & Norfolk, VA

August 2015 – October 2019

Senior Communications Specialist

Served as Marketing Lead for the sale of commercial real estate properties with a cumulative value of over \$1.65 billion, developed and executed property marketing strategies, and managed each property's digital presence.
